### **DETAILED ACTION**

The following office action is in response to the amendment filed on December 17, 2008.

Claims 1-28 are pending. Claims 2 and 19 have been amended.

#### ***Claim Objections***

1. Claim 28 objected to because of the following informalities:

Claim 28 teaches limitations "A computer-readable medium having stored thereon a computer which causes the computer device to perform a method according to claim 1 or claim 2".

Examiner is unclear as to how a computer is stored on a computer readable medium, and how the computer causes the computer device (itself) to perform the a method. Appropriate correction is required.

#### ***Allowable Subject Matter***

2. Claims 1-27 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1 and 18, the prior art of record do not teach or suggest defining a variable number of input sections equal to the variable number of items.

With respect to independent claims 2 and 19, the prior art of record do not teach or suggest defining a variable number of input sections equal to the variable number of region subsets.

With respect to dependent claims 3-17 and 20-27, these claims are allowable as they depend upon an allowed base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
